## PROJECTS

**Grabbio - Web App** | [HTML](#), [CSS](#), [JavaScript](#), [MYSQL](#), [Java](#) (Hiberante, JSP, Jakarta) | [GitHub](#) **11 2024**

- Offers a seamless shopping experience to users and also well-furnished dashboard for admin to maintain and manage stocks based on sales.
- Integrated BCrypt hashing for secure user authentication, ensuring data protection and safeguarding user credentials.

**Baristo Business suite** | [HTML](#), [CSS](#), [JavaScript](#), [AngularJS](#), [Java](#), [Spring Boot](#), [MYSQL](#) | [GitHub](#) **02 2023**

- The system allows customers to place their orders either manually or via self-service kiosks or mobile apps. Orders are immediately sent to the kitchen for preparation.
- It tracks ingredients and supplies used in preparing food, ensuring the café is always stocked with the necessary items.

**Banking Application** | [Java](#), [Spring Boot](#), [Spring Data JPA](#) (Hibernate), [MYSQL](#)

- Users can create and manage their accounts, including savings, checking, and fixed deposit accounts.
- pay utility bills, recharge mobile phones, pay for subscriptions, and make payments for services like electricity, water, gas, and broadband directly through the application.

## COURSE

**Java FullStack Development course in Besant Technology at Tambaram**

**Programming Languages:** Java, JavaScript

**Frameworks:** Spring Boot

**Web Technology:** HTML, CSS, Bootstrap

**Database:** MySQL
